The map in this leaflet shows the 64 INTERREG IIIA programmes dedicated to supporting *cooperation across borders in Europe*. Together the programmes cover all of the internal borders within EU25 and the external borders of the Union. In total they fund projects for more than € 4 billion.

If you are involved in one of the programmes this is a useful starting point for learning where your colleagues around Europe work. Through their websites you can find more information and get in contact with them directly.

INTERREG III runs from 2000 to 2006 and builds on the successful implementation of INTERREG I and II. Strand B covers transnational cooperation areas and strand C supports inter-regional cooperation between partners from all parts of Europe. The European Commission proposes to build on the present work within INTERREG in the new budget period 2007-2013 under the *objective for territorial cooperation*.

This leaflet has been developed by the INTERACT Point for Qualification and Transfer. Qualification and Transfer organises events to promote the sharing of experience and information between key INTERREG stakeholders. We also provide training and produce supporting materials. If you have identified a particular need for your programme, please contact us to hear what INTERACT can do for you. We look forward to hearing from you!

Cross-border cooperation in Europe – An overview of INTERREG IIIA programmes 2000-2006
