Conference: Good practice in cross-border cooperation in the Upper Rhine region

A series of international study visits funded by the Interreg programme V A for the Polish-Czech Euroregion Cieszyn Silesia takes the project partners to different European border regions in the framework of the TEIN (Transfrontier Euro-Institut Network) in order to exchange experiences and best practices regarding obstacles caused by historical, political and ethnical or national tensions.

The next study visit, organized by the Euro-Institut in Kehl, starts with a conference bringing together the project partners from five different border regions in Europe (PL-CZ, IRL-NRL, FR-ESP, A-IT-SLO, FR-DE) and actors of the cross-border cooperation in the Upper Rhine region. Come and join us for a discussion on how to overcome difficulties and challenges in the French-German cross border cooperation.

**Date: 07.11.2017
9h00-12h30
Kehl, Germany**
